The biggest names, the biggest games, breathtakingly brought to life on the Game Boy.

The blockbusters that bust more blocks, these are the games that pack more action than a very action-packed thing.

5 killer carts for Game Boy addicts everywhere.

FASTEN YOUR SAFETY BELTS FOR BLOW YOU

The Crash Dummies on Gameboy is your chance to become a real live crash dummy taking all the crashes, bangs and wallops that our heroes face as part of their working day.

1 In Level One you're a stunt man. When the director says action, your job is to take a dive from a building, hitting as many obstacles as possible on the way down. Make a smashing spectacle of yourself and you'll move on to Level Two.

2 Next it's a day at the test drive centre checking out a prototype "air" bumper. In Level Two you've got to collect as many air bottles as you can in order to charge up the bumper, but stay clear of the oil slicks and pot-holes because these will slow you down.

3 In Level Three you're testing an indoor ski slope. Hit as many flags as possible on the way down, but avoid the rocks and trees. And have a go at the "Hotdog" – a speciality move you'll want to try again and again.

DON'T YOU BE A DUMMY, BUCKLE YOUR SAFETY BELT!

A SMASH THAT'S GOING TO AWAY

4 How do you fancy a day at a bomb factory as a quality controller?

In Level Four your task is to destroy the fused bombs and body parts and allow the good bombs through. Make too many mistakes and you'll be blown sky high!

5 In Level Five you have a stint as a "test" astronaut.

Your mission is to try and guide a spaceship to its target. But watch out because the craft's inertia combined with a strong gravity field will drive you off-course.

The finger is on the button. Only your thumbs can save mankind.

You are the Supreme Defence minister and doom is on your doorstep. Thousands of not so cuddly scudly missiles are falling from the sky. As the boys bite their nails in the bunkers, the real men man the missile bases. Your job, blast the enemy's bombardment out of the blue.

Defend one attack and another starts, these boys fire more missiles than a Trafalgar Square pigeon. They've got satellites, stealth bombers and very clever smart bombs.

Defend 16 cities from New York to Moscow. Make a slip of the thumb and the east gets blown west.

'Missile Command'™ is the arcade classic now available on Game Boy,® with digital sound and graphics so real they'll blast your head off. It's the game for people who carry sandbags not handbags.

Beware alien spacecraft with lasers more dangerous than a kiss from your granny. They're out to mash your ship into metal mincemeat. Use your rocket thrusters wisely and when the heat's really on hit "hyperwarp" and watch them wallow in your wake.

Challenge the computer on your own or with an ally. Alternatively, challenge a friend and blow them into the next galaxy.

'Asteroids,'™ the game that made them barricade the arcade, is now on Game Boy.® With digital sound and graphics so good they'll send your eyeballs into orbit. It's the game that's tougher than a ten year old rock cake.

Outwit him to score a spectacular Slam Dunk. Packed with options - Practice, Skills, Free Throws, Cup Competition, Game Speeds, Skill Levels and many many more. TIP OFF is great fun, giving you a tougher game as your skill and speed improve.

The Game Boy version retain the pace and game play of the console versions except that it is one player only. The scanner allows you to view the position of other players on the pitch at any time during the game. You can glue KICK OFF to the Game Boy and forget about other cartridges (CVG Review)

The struggle against the evil awaiting you is gigantic. The fire power at your disposal is mega but the price of failure is total annihilation.

Battle through the five worlds of darkness against awesome monsters, explore hidden rooms but keep half an eye open for the unexpected. The world of Turrigan is very dangerous but exciting.

Command your Cobra space craft on a fantastic voyage of discovery and adventure. Explore eight galaxies and thousands of worlds. Fight pirates, bounty hunters, smugglers and invading aliens. Try smuggling or even piracy. Buy extra weaponry and equipment for your ship until you have the toughest ship around and improve your combat rating as one of the Elite.

But watch out for Tully Alford - he plays mean. Tully is the treacherous lawyer intent on stealing the family fortune and who has many a dirty trick up his sleeve.

They dance a wacky dance!
And you'll be shakin', rattlin' and rollin' when the spikes, monsters and ghosts save the last one for you! If you solve the puzzles and follow the clues you might just save the Addams Family so that they can...

...live how they wanna live!

GET READY TO GET SPOOKY, AND GET SET TO GET KOOKY... IT'S PUGSLEY'S SCAVENGER HUNT™ EN GARDE!

As if things weren't ooky enough! Wednesday has been a perfectly taunting child. She's gone and devised a simply tourturous game which will drive her darling wretched brother, Pugsley, to happiness. How absolutely delicious! Wednesday has hidden six wonderfully strange items somewhere about the Addams Family Mansion. Now, you must guide poor Pugsley on his quest to uncover them. Traps, traps, traps you say! Well, yes. What else would add so much lovely horror to this unnaturally delightful fun? Little Wednesday, so full of charming woe, has made sure this adventure will be a doom-filled doozy. There are even hidden switches all about, which produce the loveliest blood-curdling effects when Pugsley runs into them.

It's cold. It's really really cold.

And you know what? It's going to get colder.

The whole world is being cocooned in ice and snow by the Yeti - a gruesome beast with an icicle for a heart and quite appallingly bad breath. His plan is to create and rule a new frozen kingdom here on earth.

Thankfully, Mr. Nutz, SuperSquirrel, is about to turn up the heat. Only he can prevent a new and permanent ice age. To help him on his way he's got a lotta Nutz, a lotta gutz and one enormous tail.

The temperature's dropping but the heat is most definitely on.

The Middle East's craziest tyrant has stretched the patience of the West just too far. The U.S President and his advisors have decided that covert action by a lone Apache helicopter is the only way to foil his lunatic plans and neutralise his offensive capability.

Now you can do your bit for the Western World, piloting one of the best GAMEBOY games yet. But don't take our word for it...

It is a dark time for the Rebellion. Although the Death Star has been destroyed, Imperial troops have driven Rebel forces from their hidden base and pursued them across the galaxy. Now, on the ice world of Hoth, the rebellion must make a last desperate stand against the overwhelming power of the Empire.

Join Luke Skywalker as he searches the ice caverns of Hoth for Imperial Probe Droids as they attempt to pinpoint the rebel base. Jump inside a snowspeeder and scream into battle against a squadron of Imperial Walkers and then strap yourself into an X-Wing fighter and speed towards Dagobah. Search the jungles for the elusive Jedi Master, Yoda and learn the ways of the Force. Master the Force and you will be ready for the final test — a blazing light saber duel with Darth Vader.

A close-up, profile view of a bald, orange-skinned head, likely a character from the movie 'The Exorcist'. The head is shown from the side, facing right, with its mouth wide open in a scream or shout, revealing sharp teeth. The skin is a bright, fleshy orange color. The head is set against a black background, which is framed by a thick, white, glowing border that follows the shape of the head. The lighting is dramatic, highlighting the contours of the face and the intensity of the expression.
